

PowerPlant 1000

1000 kW Output

Zero Fuel

Zero Emissions

Description

The **ZPower PowerPlant 1000** is a continuous duty **240/480/1000 VAC** stand alone generator providing continual electricity without fuel or emissions, for standby and prime power applications.

Features

Fuel-less Generator - **Constant 24/7 electricity** by collecting Zero Point Energy (ZPE).

The most advanced and reliable generator available for **Industrial** or **Utility applications**.

Controls provide **precise frequency** and **voltage regulation**, alarm and status message display in one easy to operate customer interface.

Generators are **modular** up to 500 MW.
